

123 Certification participates in the 6th group of Croissance Québec Techno program

In collaboration with Boston's MIT Entrepreneurship Center directed by Ken Morse (shown above on left) and the Ministère du Développement économique, de l'Innovation et de l'Exportation du Québec (MDEIE), 123 Certification was selected alongside seven other enterprise to take part in the Croissance Québec Techno program. This unique program is designed to support entrepreneurs in adopting leading-edge practices and strives to foster rapid growth. In the next two years, Claude Choquet (seen above on right) and his management team will be trained and coached by successful entrepreneurs from the MIT Entrepreneurship Center.
